Product Features

PowerWalker VI 1000 SE is a line-interactive UPS which is designed to protect your personal computer or sensitive electronic equipments. The UPS is equipped with boost and buck AVR to stabilize input voltage. And it also employs microprocessor control and allows wide input voltage from 170VAC to 280VAC with overload protection. The UPS can be automatically started up without AC power supplied. In addition, this UPS provides advanced modem or telephone line surge protection, and green power function for energy saving.

- Microprocessor control guarantees high reliability
- Buildt-in DC start function enables UPS to be started up without AC power supplied
- Build-in USB communication port with connecting intelligent monitoring software
- Green Power Function for energy saving
- Auto restart while AC recovery
- Provides Modem/Phone line surge protection
- Provides overcharge and overload protection
